---

Donn:

Attached is a revised draft Community Involvement Plan for Arkwood, Inc. It incorporates the most recent comments that you sent via email on May 9, 2014. You can review the latest revisions and see the specific text changes when the document is viewed with "track changes," on the review pane, turned on.

In addition, I summarized the changes below, in blue, as italicized replies to each of your comments in your May 9, 2014, email.

The attached document still has margin comments and questions, predominantly questions from ADEQ to EPA, that still need to be addressed by EPA.

Thank you.

Ok, this looks good with a lot of detail and good layout. Thanks! A few comments to update:

- Pls add "In cooperation with ADEQ sp out, at the start of the CIP.

*This was added to Section 1.0, in the first paragraph of the CIP.*

- add more info on the overall Dioxin Reassessment program headed by HQ on that section...if you can locate, but be careful,.

*A paragraph detailing the Dioxin Reassessment (in simple terms), and a link to the published Volume 1 of the reassessment, were added to*

9645787

*Section 2.3. Minor language changes were also made in Sections 2.3 and 3.5 to address the dioxin reassessment.*

- Try to find and add a Paragraph on the SF Completion Event we held at the site in the late 90's

*A brief paragraph was added to Section 2.3 regarding the July 18, 1996 ribbon cutting ceremony signifying the completion of the soil remedy at the site.*

- Pls re-word 3.5 second paragraph to be more user-friendly and all agencies working together to be responsive.

*Section 3.5 was reworded to reflect EPA, ADEQ, ATSDR, and ADH working together to respond to community concerns. In addition, a statement was added to Section 2.3 regarding ATSDR and ADH working together to update the Public Health Assessment for the site.*

- Delete "timing line" under activity 1. You mention elsewhere I am the CIC of record.

*The "timing" bullet is part of the boilerplate format, and appears in all Activities 1A-1J and 2A-2G in the CIP. To eliminate repetition in Activity 1A, and keep formatting consistent with rest of report, moved some text from "method" bullet to "timing" bullet, and deleted repetitive text.*

- do we have any other staff from ADEQ in their response letter that we can add with Mark.

*Mark Moix from ADEQ is the only name that appears in ADEQ's comments, but his email to Stephen Tzhone states that the comments and questions were made by "the project team." It appears that he had the document reviewed by multiple staff members and/or other agency staff, and their comments were consolidated.*

Donn:

For your review, attached is a revised draft Community Involvement Plan for Arkwood, Inc. We have incorporated ADEQ's comments to the 1992 Community Relations Plan. Several of ADEQ's comments were questions directed to EPA. These questions included whether there should be additional mailings, public meetings, and/or open houses to address the dioxin reassessment; whether the repositories have been audited and updated recently; and whether a website should be established.

I summarized ADEQ's questions in margin comments in the attached document. ADEQ's questions are in addition to Toeroek's margin comments from the prior draft. The rest of ADEQ's comments have addressed and incorporated into the revised document.

Please let me know if you have any questions about the attached document. Thank you.

Donn:

Thank you for forwarding ADEQ's comments and questions to the 1992 Arkwood CIP.

Toeroek will incorporate ADEQ's comments and questions into the draft 2014 Arkwood CIP, and send you a revised version of that document. I looked through ADEQ's comments, and many of them are questions directed to EPA, such as, whether community meetings, open houses, and mailings are needed due to the dioxin reassessment. We will include ADEQ's questions directed to EPA in the margin comments of the revised draft CIP, and we will update the text of the document, addressing ADEQ's comments.

I'm confused about your request to incorporate comments to the original, and draft revision. By

original, are you referring to the 1992 CIP that ADEQ made comments to, or to the 2014 draft revised CIP? That 1992 document was prepared by another contractor, PRC, and is in a read-only, pdf format. It does not follow the current EPA CIP template, and has outdated contact information. I assume you want us to focus on the 2014 revised draft CIP.

I tried to send this file through Adobe connect but it's too big. So, the next step on the Draft is to incorporate DEQ's comments above to the original, and your Draft Revision. Try to follow their *Edits* to the text as much as you can. Thanks.

Hi Donn,

Attached are the ADEQ comments and recommendations for the Arkwood CIP update.

We can also have a call between ADEQ, EPA, and the CIP support contractors, if there are any followup questions.

Thanks,

**Subject:** Arkwood CIP Update

Hello Stephen,

Attached are a few comments/questions from the project team for the old community plan.

These comments were not routed through division management; this is just some information the EPA site community involvement section can decide to use or not use.

When the draft CIP document is ready for review, we will route it through the division for review and concurrence.

Thanks,

**Mark Moix, Engineer**
